

MINECRAFT

I hope you love playing games

File

<https://drive.google.com/file/d/17fRykw7CnmtMLbVCAjqrE5V6aRo-ND/view?usp=sharing>

Note

The flag format is `cotd{some_text_here}`

Description

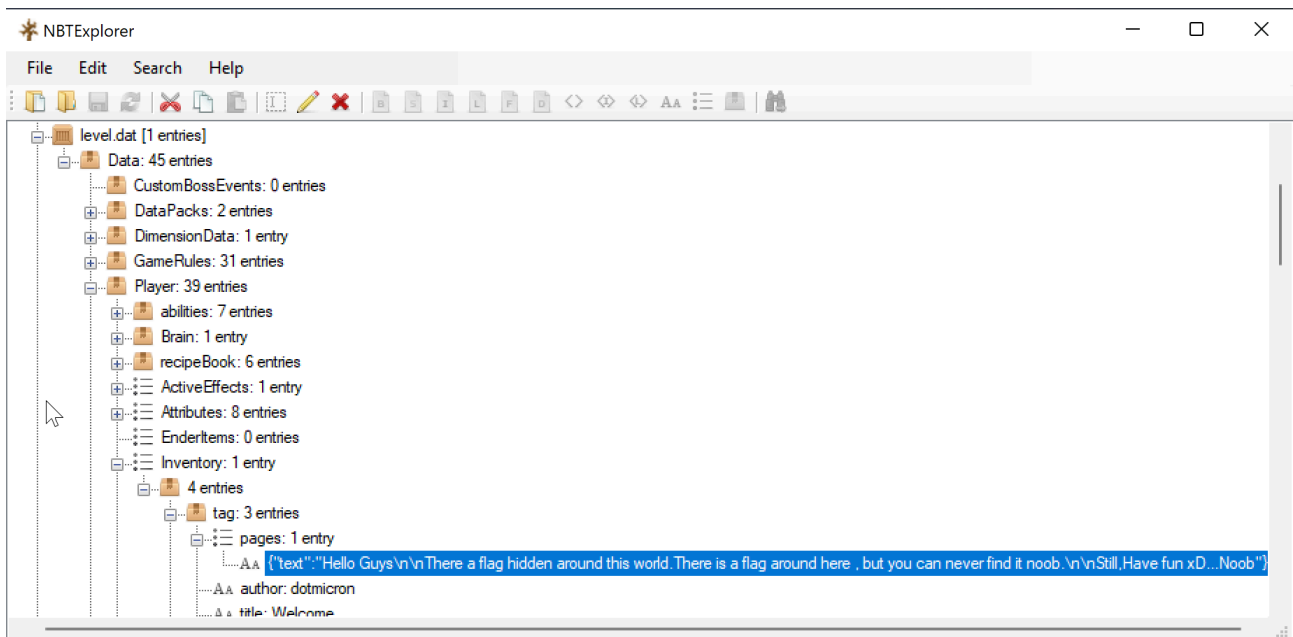

We are given a link to a drive folder named minecraft

Writeup

When we download and open the folder we get to see what appears to be files of the game minecraft

So we used **NBT explorer** to open those files....

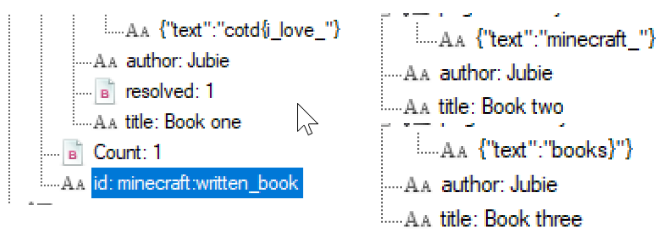

when we get to see three text strings in books saved in .dat files

```
....AA {\"text\": \"Why, hello there.\\n\\nThere a flag hidden around this world. I do not expect you to find it, but you can try anyway.\\n\\nHave fun.\"}
....AA {\"text\": \"Hello Guys\\n\\nThere a flag hidden around this world. There is a flag around here , but you can never find it noob.\\n\\nStill, Have fun xD...Noob\"}
....AA {\"text\": \"cotd{fake_flag}Submit this and you will prove you are a noob. Flag will be in parts a little hint for you :)\"}
```

By this time we are sure that the flag is in parts and is saved in books...

So to extract that we use search tool...

We got the flag.

`cotd{i_love_minecraft_books}`
